📍 Frederiksberg Bredgade
13B, 322, Frederiksberg,
2000, Danmark

Nationality
Danish, Brazilian

Date of birth
21-09-1999

Skills

- ☐ Algorithms
- ☐ Softwaredeveloper
- ☐ Machine Learning
- ☐ C#, Python, Typescript (react), HTML, CSS, SQL
- ☐ CI/CD
- ☐ Javascript, F#, C, Haskell
- ☐ Project Management
- ☐ Cloud Services
- ☐ Software Security

Languages

- ☐ Danish
- ☐ English
- ☐ Portuguese
- ☐ French

I have a solid academic foundation and a strong work ethic. During my studies, I prioritized academic understanding and thrived when working with algorithmic problems. At the same time, I am motivated by collaboration and professional sparring within team environments. In recent years, I have worked intensively with software development and have been responsible for delivering solutions for, among others, DOT (Din Offentlige Transport), esundhed.dk, and Novo Nordisk. Most recently, I have developed a medical record system for Danish veterinary clinics (vetalign.dk).

Education

Master of Science (MSc) in Computer Science, University of Copenhagen
February 2024 - Present

Bachelor of Science (BSc) in Computer Science, Københavns Universitet
September 2019 - June 2022

Højere Handelseksamen (HHX), Hillerød Handelsgymnasium
August 2015 - June 2018

Work Experience

TA in Randomized Algorithms and Data Structures, University of Copenhagen (Part-Time)
April 2025 - June 2025

Softwaredeveloper, Netcompany
August 2022 - January 2024

TA in Discrete Mathematics and Algorithms (DMA), University of Copenhagen (Part-Time)
September 2021 - January 2022

Administration Employee and Teacher, Ctrl Play Goiânia, Brasilien
July 2018 - November 2018

Mentor in Mathematics, Hillerød Handelsgymnasium (Part-Time)
October 2016 - June 2018

Courses

Client Engagement Seminar (1 week), Netcompany
November 2022

TA course (3 days), University of Copenhagen
August 2021

Masterclass, Hillerød Handelsgymnasium
August 2016 - December 2017
