SKILLS

- Algorithms
- Machine Learning
- Software Development
- C#
- Python
- Typescript & React
- HTML & CSS
- CI/CD
- Projects Management

LANGUAGES

- Danish (Fluent)
- English (Fluent)
- Portuguese (Fluent)

PROFILE

Software developer with a theoretical foundation in Computer Science, specialised in algorithms and machine learning. Passionate about general problem solving and building scalable and efficient solutions. Has broad experience within full-stack development and teaching.

WORK EXPERIENCE

Netcompany

Aug 2022 - Jan 2024

Software Developer

- Full-stack development for public and private sector clients. Built and maintained applications for organisations including DOT (Din Offentlige Transport), esundhed.dk, VIA Studieportal, and Novo Nordisk.

University of Copenhagen

Sep 2021 - Jan 2022

Teaching Assistant — Discrete Mathematics and Algorithms

- Facilitated weekly exercise sessions for first-year BSc students. Taught 3 times per week, reviewed and graded assignments, and provided constructive written feedback.

Ctrl Play Goiânia

Jul 2018 - Nov 2018

Administration Employee and Teacher

- Taught programming to students aged 10-15 at a programming school in Brazil. Prepared course materials and handled administrative tasks.

PROJECTS

VetAlign

2025 - Present

Full-stack medical record system for Danish veterinary clinics. Designed SQL database, built backend in C# with Azure Functions, and frontend in TypeScript (React). Features AI-assisted clinical documentation. Demo: [danielstephensen.github.io/experience#projects](#)

EDUCATION

MSc in Computer Science

Feb 2024 - Present

University of Copenhagen

BSc in Computer Science

Sep 2019 - Jun 2022

University of Copenhagen

HHX (Higher Commercial Examination)

Aug 2015 - Jun 2018

Hillerød Handelsgymnasium
